PSAT/NMSQT

The 2018 PSAT Team begins with an 18-week online course and practices tests in June and July.

- The 18-week spring/summer course and the fall course are designed to offer the opportunity for maximizing your score on the PSAT/NMSQT, SAT, and ACT.

- Progress toward higher scores is often reflected in the amount of effort and time dedicated to practice. Studying in small increments of time on a consistent basis has shown the best results.
